About

Strategischer und **anpassungsfähiger** analytischer Denker mit **über 5 Jahren** Erfahrung in der Softwareentwicklung (Webentwicklung & Frontend) sowie **2 Jahren** in der IT administration. Absolvent des Politecnico di Torino, zertifiziert in Datenanalyse und Projektmanagement durch Google. Hoch fokussiert und methodisch arbeite ich effizient und ergebnisorientiert, während ich Vertrauen und Zusammenarbeit im Team fördere.

****Note:** I took a career break from June 2022- March2025 to finish my education in CE at Polito.

Experience

Software Engineer

AJ Industries – Turin, Italy

Dec 2020 – Jun 2022 (1yr 7mos)

Industrial safety software company for operational and remote monitoring systems.

- Developed cloud-based apps using **React, Vue.js, Node.js, Express, and TypeScript**.
- Built microservices and **serverless** systems; deployed with **Docker, Kubernetes, and OpenShift**.
- Integrated **authentication, authorization, middleware, and REST API** with structured code and error handling.
- Used **custom hooks, redux, react-query, local storage, and navigation** to fetch and display data.
- Handled **CI/CD** with **Git** and **GitHub**.

Front-End Engineer

Kanoon Farhangi Amoozesh Ghalamchi – Tehran, Iran

Jun 2018 – Nov 2020 (2yrs 6mos)

Largest educational platform in Iran with over 1 million students.

- Improved UI/UX with **React, JavaScript, CSS, and REST API**.
- Used variables, conditions, arrays, and loops in personalized learning tools.
- Built responsive pages with **routes, navigation, and local storage**.

Full-Stack Web Developer

Self-Employed – Tehran, Iran

Mar 2017 – May 2018 (1yr 3mos)

Delivered websites for local businesses and manufacturers.

- Created 9 websites using **WordPress, HTML, CSS, and JavaScript**.
- Added interactivity with arrays, loops, and conditions.
- Used **Vue.js, React, and Git/GitHub** for dynamic components.

IT Specialist

BM Design Studio – Tehran, Iran

Jun 2015 – Sep 2016 (1yr 4mos)

Local design agency offering IT and creative services.

- Provided hardware/software support and basic **HTML/CSS** updates.
- Used scripts with variables and conditions for system tasks.

Skills

Frontend:

HTML, CSS, JavaScript, React (custom hooks, local storage, routes, navigation, fetch data from API, TypeScript, Redux, React Query), **Vue.js, Angular.js**.

Backend:

Node.js (middleware, authentication, authorization, structuring, error handling, modules, REST API, Node Package Manager), **Express.js**.

Full Stack & Web:

WordPress, Git, GitHub, REST API, variables, conditions, arrays, loops.

DevOps & Cloud:

Cloud Computing, Microservices, Serverless, Docker, Kubernetes, OpenShift.

AI & Backend Development:

AI application development with **Python and Flask**, Django app development with **SQL** and **databases**.

Education

Bachelor's Degree in Computer Engineering

Politecnico di Torino – Turin, Italy

2021 – 2025 (Expected)

- Focus on full-stack development, data management, and scalable web solutions.
- Completed academic projects in **Python, SQL**, and backend frameworks like **Flask** and **Django**.
